Arpit Pandey

Front End Developer

arpitpandey.2001@gmail.com | +91-8318346405 | Raipur, Chhattisgarh | Portfolio Website | ArpitTheSlayer | arpittheslayer

Summary

I'm a Frontend Developer in the making and I have a knack for turning intricate designs into pixel-perfect, highly responsive user interfaces. I have hands on experience in building structured applications in Next.js with my core expertise in HTML, CSS, JavaScript, React.js and Tailwind CSS. My robust full-stack background in Node.js, Express, and databases (MySQL/MongoDB) gives me the big picture awareness to work harmoniously with backend teams and integrate APIs effortlessly. I am passionate about clean code and modern design systems in Figma, I build intuitive high-performance user experiences.

Experience

Digital Poonam (Shree Shivam Venture) — Raipur, Chhattisgarh

Frontend Developer (AI-Augmented) — 13 May 2026 - Present

- Migrated the company's main web platform layout to a modern Next.js framework (digitalpoonam.com) using AI and visual platforms to design high-end animations and content structure.
- Built an AI-driven automated product listing pipeline that leverages internal inventory APIs and image parsing tools to generate structured data for ingestion into Shopify stores.
- Created a visual lookup interface and interactive Stock Check dashboard, mapping retail database API streams into a clean, responsive frontend layout.
- Deployed scalable landing pages (aibizzpro.com and marketing landing pages) on Vercel with integrated automated email and WhatsApp communication workflows.
- Maintained core full-stack parameters; merged foundational coding with modern automation tools to support daily startup technical needs.

Education

MATS University — Master of Computer Applications • 9.34 CGPA

MCA — Raipur, Chhattisgarh • July 2024 - July 2026

MATS University — Bachelor of Computer Applications • 9.00 CGPA

BCA — Raipur, Chhattisgarh • July 2022 - May 2024

Kalinga University — Diploma in Computer Applications • 8.38 CGPA

DCA — Raipur, Chhattisgarh • July 2020 - May 2021

Projects

Digital Poonam Website — May 2026

Overhauled legacy system into a fully responsive Next.js framework, taking care of deployment from staging pipeline on Vercel to live custom domain.

AI Bizz Pro — July 2026

Designed the landing layout for the front-end and implemented automated conversational workflows to handle incoming traffic and user scaling.
